PENTHOUSE LOFT

1 bedroom

Tower A - Level 22 / Tower B - Level 29

The Penthouse Loft apartments are allocated on the final floors offering mesmerizing views and an ultimate luxury lifestyle to the owners. The penthouse loft apartments are designed to offer customers a variety of styles and possibilities. The moody color pallet with the loft-style characterized design solutions created a very modern and desirable living environment.

The first floor of the two-level apartment offers a spacious, double-height ceiling living room and an open kitchen with a separate dining area. The living room leads to the spacious terrace. On the second floor is allocated a bedroom with a closet and a spacious bathroom with a bidet and double basins.

The apartments are solved in moody colors, rough textures with wooden and metal decorative elements; high-quality wooden flooring, a wooden veneered closet, a semi-matt colored kitchen with quality in-built appliances, artificial stone and ceramic tiling, along with open plan layout to form a harmonious and outstanding space for the owner's comfort. The Kitchen serving as a design element itself is solved in a wood veneer finish, with open shelving and an unscratchable metal top. An isolated and comfortable sitting arrangement near a wood-veneered TV unit along with an open kitchen and separate dining zone is carefully crafted to deliver comfort and convenience.
